

Wheels Up is a revolutionary membership-based private aviation company that significantly reduces the upfront cost to fly privately, while providing unparalleled flexibility, service and safety. Wheels Up works with family offices around the country to help identify specific travel needs and create a customized, turnkey private aviation solution.

## TWO DIFFERENT MEMBERSHIP TYPES

### WHEELS UP FOR INDIVIDUALS

Ideal for individuals and families who value the safety and certainty of a private aviation solution as much as they do their own time and financial decisions

### WHEELS UP FOR BUSINESS

Ideal for companies of any size who value a safe, flexible and economical private aviation solution without the burden of owning an asset or making a long-term commitment.

## AN AIRCRAFT TYPE SUITED FOR YOU

With as little as 24 hours' notice, Wheels Up Members have guaranteed access to a private fleet of over 75 aircraft.

### KING AIR 350I

With the average private flight being less than 2.5 hours, our exclusive and vast fleet of King Air 350i aircraft provides you with the most economical solution for flying private with up to 8 passengers

### CITATION EXCEL/XLS

Flying farther, faster, and with up to 8 passengers, our fleet of Citation Excel/XLS aircraft gives you the flexibility to travel to seemingly endless destinations in the comfort of the world's most popular business jet.

## THE WHEELS UP FLIGHT DESK

When Wheels Up Members require longer range flights or with more than 8 passengers, our Flight Desk is the perfect complement to the Wheels Up fleet. Our in-house team of industry experts work with only the safest and most reliable charter operators to provide Wheels Up Members with off-fleet solutions to any destination around the world. Each safety vetted operator goes through a rigorous assessment and approval process that includes a full on-site audit of facilities aircraft.
