

Customized services that support your lifestyle worldwide

AS Solution delivers customized, global executive protection, secure transportation, training and security consulting services for the Fortune 500, private clients and philanthropic organizations. Our worldwide network of 191 employees, supported by our experienced management team, have delivered over 10 years of operational excellence and growth.

EXECUTIVE PROTECTION

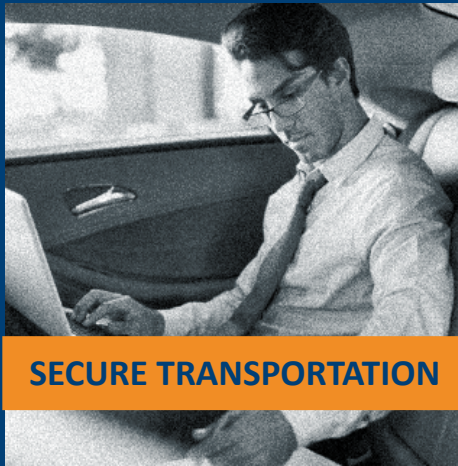

CORPORATE • PRIVATE • RESIDENTIAL • TRAVEL

Corporate and private executive protection continues to be our primary focus and has been for over 10 years. We know our clients require their service provider to get it. At AS Solution we understand the need to combine best practices in executive protection with the art of blending protective strategies to support our client's culture, lifestyle and goals. Collaboration and building relationships are key components of the value we provide to our clients.

Our experienced employees and vetted, trusted partners consistently focus on creating safe and comfortable experiences for high profile travelers. They use technical skills, forward thinking, creativity and relationship building to help clients navigate the security and logistics challenges of traveling, working and living globally.

Our customized executive protection and special security services are highly flexible. They range from discreet executive protection to high risk dignitary protection, protective surveillance, secure transportation and security awareness programs.

With over 800 annual assignments worldwide, we are continuously building our network and utilizing our expertise to fully support our client's needs and desires.

SECURE TRANSPORTATION

LAND • AIR • SEA

Secure transportation is the cornerstone of an effective security program. We provide all types of transportation anywhere in the world to support your travel needs and you can rest assured that the transportation resources we provide have been thoroughly vetted and screened. Examples of our services include:

- ⇒ Reliable and vetted drivers and vehicles for
 - ⇒ Airport transfers
 - ⇒ Daily support throughout your trip
 - ⇒ To support our client's executive protection teams
- ⇒ Aircraft Charters
 - ⇒ Fixed wing
 - ⇒ Helicopters
- ⇒ Maritime Charters

We know that reliable, appropriate transportation is a key component of any successful trip or executive protection detail. It is our goal on every engagement to provide flawless service that supports you in accomplishing your goals.

CONSULTING

RISK & THREAT ANALYSIS • FAMILY SECURITY

Threat and risk analysis is the first critical step in reducing risk for our clients. Our analysis is based on a vast array of variables and information discreetly collected by our highly professional and experienced staff. Our aim is to understand the scope and nature of the potential threats to our clients, their families and their interests, identify relevant vulnerabilities, understand the probability and criticality of these threats and craft appropriate, tailored solutions to mitigate risk to an acceptable level at an acceptable cost.

Many people have pre-conceived ideas about security and protection programs that can frustrate or delay implementation. These pre-conceived ideas can:

- ⇒ Be overly-intrusive
- ⇒ Leave your family or organization vulnerable
- ⇒ Embarrass you, your family and your organization
- ⇒ Cost way too much

If you think you need, or are just starting, a security or protection program for your family or corporation we can help you navigate the process and implement a program that works for you from the beginning. Contact us BEFORE you make a classic mistake.
